oyogobrian@gmail.com

Nairobi, Kenya

SUMMARY

As an aspiring data scientist with one year of hands-on experience, I am adept at leveraging data analysis techniques to derive meaningful insights. Proficient in Python programming, I have successfully contributed to projects involving statistical analysis, machine learning, and data visualization. My strong analytical and problem-solving skills have enabled me to make valuable contributions to my team. Eager to expand my knowledge and skills in this dynamic field, I am committed to delivering data-driven solutions that contribute to organizational success.

EDUCATION

Dedan Kimathi Uni of Technology

Bachelor's Degree in Computer Science
2020 - 2024

Rongai Agri-Tech Boys High Sch

Kenya Certificate of Secondary Education
2016 - 2019

White Star Academy

Kenya Certificate of Primary Education
2009 - 2014

SKILLS

- Data Cleaning and Preprocessing
- Data Analysis and Visualization
- Machine Learning
- Python Programming
- Statistical Analysis
- Database Management
- Collaboration and Communication

CERTIFICATIONS

- Udemy Certificate of Completion - Python for Data Science and ML
- Data Science and AI Club Certificate of Participation

PROFESSIONAL EXPERIENCE

Data Scientist, Intern

PCEE Company | Portable Car Engineering Environment
June, 2023 - Present

- Model development
- Data Cleaning and Preprocessing
- Data Analysis
- Anomaly Detection
- Predictive Maintenance - *In Progress*

PROJECTS

- Python Projects - Restaurant management system, snake game, dice game, Bellman-Ford's, Towers of Hanoi
- Machine Learning model development
- Salon Management system, Java
- Notes App, Mobile App Programming
- Data Visualizations
- Data Cleaning and Python Inbuilt projects
